As a cooperative, Cavero is dedicated to sustainability with the vision of managing the land so it can be passed on to future generations. They have received leading sustainability awards for their holistic and dedicated approach to economic, social, and environmental sustainability, adding even more value to every glass of Tavernello.

ABOUT THE WINE

Grown on clay and gravel soils, this Pinot Grigio is sourced from the north east of Italy. The grapes are machine harvested in early September, destemmed, and traditionally pressed. Fermentation takes place in 300 – 1600hl tanks at 18 °C for 8-10 days. The wine is stored in stainless steel tanks for 3-4 months before bottling.
