They have received leading sustainability awards for their holistic and dedicated approach to economic, social, and environmental sustainability, adding even more value to every glass of Tavernello.

ABOUT THE WINE

Grown on clay and limestone soils and harvested by hand and machine in the middle to end of September, followed by destemming.

After a 10-20 day fermentation at 25-26°C in 100-400 hl tanks, the wine undergoes malolactic fermentation and is stored in stainless steel tanks for 3-6 months until it is bottled.
