

## Cantine Povero

- Leader in quality for price: introducing excellent Italian wines at an approachable price point.
- Family Tradition: generational winemaking with family vineyard relationships dating back to 1837.
- Sustainability Leader: All vineyards on their property are certified organic, solar panels are installed on the roof of the winery, all water used for production is extracted from an ancient family well, they are actively planting trees and purchasing forest to achieve a 1:1 ratio of forest to vineyards.

Grandpa Tumlin planted the first vineyard in 1948, continuing the traditions of his ancestors, whose roots date back to 1837. Since then, Cantine Povero has maintained a constant commitment to responsible viticulture, working in concert with the seasons and inherent strengths of their lands.

More than 150,000 vines in 45 hectares of vineyards sit in full sunlight from dawn until dusk around 322 meters of altitude. Relying on natural, environmentally friendly technologies, the vineyard is cultivated without the use of herbicides and chemical fertilizers.

Cantine Povero believes that their wines are “bottled experiences,” meant as a gift to the world.
