

# Volio Has Kegs!

## Why Kegs?

### 1 Fast

High speed of service.

If you are a high volume account or a cocktail heavy bar that uses sparkling wine as a cocktail ingredient, kegs will save you a large amount of service time.

### 2 Cost Effective

Save money without sacrificing quality.

The cost of spoilage and over/under pours can reduce your margins by 10-25%. With bottles there is an additional \$2-3 per bottle in class, labels, cork, foil, and shipping cost. Wine on tap is efficient and high margin.

### 3 Fresh

Keep the freshness & bubbles!

The blanket of gas means still wine stays fresh longer than bottles and sparkling wine stays sparkling, especially in accounts where wine is not the focus. The wine also lasts longer than beer.

### 4 Easy

Super easy for all staff.

If you are a sports bar, tap room, or beer-heavy account, your staff is already comfortable with the technology and you won't have to worry about them inexpertly or awkwardly opening or pouring bottles.

### 5 Sustainable

Recyclable and cheaper to ship.

Designed to maximize the quantity of kegs per pallet, truck, or container, resulting in reduced storage space, costs, handling, and transport. Kegs are 100% recyclable when empty: deflate, flatten, and deposit. Do not depressurize in a confined space.

## Why Volio Kegs?

### 1 Hands-On Help

We have insanely talented sales reps with technical knowledge who are happy to help you work through this process.

### 2 Sampling

You can taste most of our kegs in a 750ml bottle equivalent in the same juice.

### 3 Gas Options

Our sparkling kegs can use either nitrogen, CO2 or a mix of both so if you have an extra tap, you've got a spot for a Volio sparkling wine keg.

### 4 Coupler/Valve

All of Volio's Kegs use a D Coupler - American Sankey for simple and inexpensive setup.

### 5 Tap Handles

We have tap handles available and can produce them for you. Reach out to discuss our options!

### 6 Trustworthy & Customizable

Volio has our own filling station at the Cantine Povero winery, who we've been working with for 10+ years. If you have a wine you'd like in keg format, we can help you bring your project to life.
