The Three Things To Know

1. A Demeter-Certified First and Only

Enrico Rivetto's winery is the first and currently only Demeter-certified estate in Barolo and Barbaresco, reflecting his dedication to biodynamic farming; the certification in-turn deepened Enrico's understanding of his land.

2. A Living, Breathing Ecosystem

Enrico embraces diversity in his vineyards. Between rows of Nebbiolo are hedges, trees, medicinal herbs, vegetable gardens, and orchards. Acres of centuries-old woods stretch around the property, with a pond that collects rainwater, animals, and an extensive space for composting.

3. A Farmer at Heart

Enrico is a spirited, sometimes zany, man whose passion shows in every bottle. His greatest focus is protecting and strengthening his land, even if it means making unconventional choices like dedicating valuable acreage to donkeys, whose manure nourishes the estate.

Our Relationship

"Rivetto was the second producer to join Volio's portfolio, after Enrico jokingly told me in 2005 I was too young to be a wine importer and nearly kicked me off his property. Now, many years later, we're great collaborators and, more importantly, friends. [Enrico is] always promoting Volio, we will always promote Rivetto." - Charles Lazzara, Volio Founder & CEO
